FIBER: WHO SUPPLIES IT?
Georgia-Pacific sources wood and fiber for our pulp, paper and wood products operations in a responsible way.

SAWMILLS
Residual chips

LANDOWNERS
Sell timber to Georgia-Pacific

SUPPLIERS
Sell timber to Georgia-Pacific

The virgin fiber Georgia-Pacific buys comes from:
- 80% Private, Individual and Family Forests
- 15% Industrial Timberlands
- 5% Government-owned Forests

At Georgia-Pacific, we show our commitment to sustainable forestry by:
- Using forestry best management practices
- Participating in third-party certifications and controlled wood risk assessments
- Balancing the needs of our customers and business with the protection of endangered forests and conservation of forest diversity
- Supporting logger education, wildlife and habitat restoration, and state forestry group activities

WHERE DOES IT GO?
Most of Georgia-Pacific’s manufacturing facilities are in North America.

Our fiber sourcing practices are certified to the Sustainable Forestry Initiative® (SFI) Fiber Sourcing Standard. The certification process is audited by an independent third party and provides confirmation that we are meeting a prescribed set of performance standards.
